

To all Parents/Carers

30th December 2022

Dear Parent/Carer,

Change to start of Spring Term

A gas leak has been detected on the school site. Due to the nature of the leak and the specialism of the team required, the earliest they are available to trace and repair the leak is Tuesday 3rd January. Unfortunately, this will cause unavoidable disruption to the start of the school term. We are sourcing electric heaters for classrooms as a contingency so that we can reopen for pupils later in the week.

The staff INSET day will now be held on Wednesday 4th January. The school **will not be open to pupils or students** on this day.

We intend to reopen to all pupils and students on **Thursday 5th January**. Pupils will be expected to arrive at 8.45am as usual.

I am sorry that this disrupts the beginning of term, however I am sure you understand that we must ensure the school site is safe for pupils and staff.

Yours sincerely,

Renata Joseph
Headteacher
